Mike,

Did you guys evaluate this technology for lagoons?

Just forwarding this company's brochure as a FYI. One treatment technology for improving nutrient removal of lagoons. Also just heard it referred to as a Poo-gloo

Velrey,

I GREATLY appreciate your time today in learning more about the EPA interactions with states. I have attached a brochure of our product to this email and our website is provided below along with my contact information. I am in the Denver area every other month or so and would love to come meet you and your colleagues one of these times if that is possible.

Thank you again for the time and knowledge you gave me.
